

PRODUCT INFORMATION

Gyro's unique featured universal pillar which has been designed in-house. The higher profile allows for a larger number of fuses or disconnects, perfect for multiple domestic reticulation or commercial supply.

MAXIMUM FUSE CAPACITY

- 12 x 63A: or
- 6 x 63A with 160A 3ph DIN: or
- 1 x 250A 3ph DIN

FEATURES

- Modular assembly allows easy upgrade from 6 way to a 12 way
- Upgraded Polycarbonate Fuse Mounting system withstands extreme stress, pressure, and heat
- Ground level marker ensures consistent burial depth
- Scalloped Base provides maximum ground stability
- Fitted with either a 6-way OR 12-way neutral and rubber apron for maximum technical safety
- Strengthened lip for better security
- Angled lid allows condensation run off
- Air ventilation to help air flow
- Impact and graffiti resistant to reduce maintenance
- UV and heat resistant to increase asset life
- Captive Lid Screws – includes clip to hold screw in place
- Tapered screw thread allows centring before tightening
- The plastic lid and base are non-conductive making them safer
- Plastic lid, base and terminal recyclable with GYRO-cycled program

Optional Features

- Lock, asset tag or alternate screws fitted to suit network requirements
- Fuse carriers/disconnects fitted to your network requirements
