

PRODUCT INFORMATION

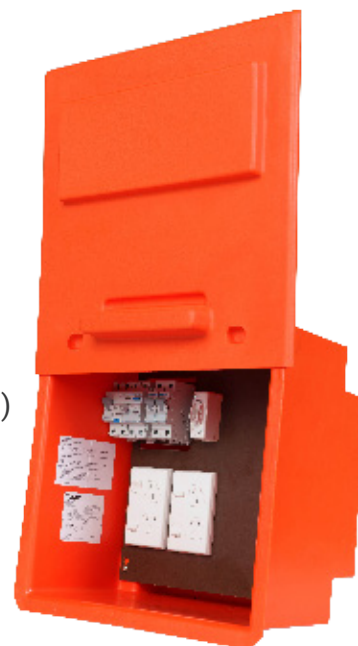

The Builders Temporary Power Supply Box enables builders and other tradespeople access to an electricity supply on a worksite where temporary power is required. The plastic construction provides a strong, durable, and weather resistant enclosure to protect the electrical equipment. The bright orange colour makes it stand out on the building site.

FEATURES

- Robust, durable, plastic construction
- Bright orange for easy recognition on site
- Non-conductive enclosure for greater safety
- Sliding lid prevents potential damage from wind gusts
- Water resistant slider and lip for weather protection
- Comes with back panel to mount electrical equipment
- Padlockable
- Recyclable with the GYRO-Cycled program
- Electrical Safety Certificate & Certificate of Compliance (Wired version)

Optional Features

- Customised colour options available for orders of 10+ units
- These can be set up for other applications
- Additional power sockets/RCBO can be added to suit your application
