

PRODUCT INFORMATION

With a unique side wall design offering structural integrity to withstand the compaction of surrounding soil, the UP40 also offers an additional Riser to allow for fast transformation of pit height when installers require additional height in the pit.

FEATURES

- A large pit with unique side wall design for superior structural integrity
- Features an optional riser for easy pit height adjustment
- Lockable Lid (Class A)
- Cable entry holes can be cut in the base to suit the size of the ducting
- Base made from robust UV stabilised LDPE proven to withstand harsh elements and perform for decades
- Risers available for installations that require an increase in the depth of the pit connections. These risers are quick and easy to install by attaching the collar to the appropriate pit by means of stainless steel screws
- Recyclable with the GYRO-Cycled program
- Assembly weight: 15.20 kg or 19.29 kg with additional riser
- Pit dimensions: 710 mm x 400 mm x 830 mm
- Pit riser dimensions: 710 mm x 410 mm x 234 mm
- Lid dimension: 655 mm x 355 mm
